ABOUT ME

I am Naitik Soni (NScyber1417), a Cybersecurity Engineer and Full Stack Developer focused on Web Security, Penetration Testing, Bug Bounty Hunting and Secure Web Development. Passionate about Offensive Security, Vulnerability Research and real-world Attack Surface Analysis.

EDUCATION

Diploma in Computer Engineering

Sardar Vallabhbhai Patel Institute of Technology (SVIT),
Vasad
Gujarat Technological University (GTU)
2025 - 2029 (Present)
Current CPI: 6.9

TECHNICAL SKILLS

Programming

Python, JavaScript, PHP, HTML5, CSS3

Web Development

React.js, Node.js, Express.js, Tailwind CSS

Databases

MongoDB, MySQL

Cybersecurity

Web Security, Penetration Testing, Vulnerability Assessment, Bug Bounty Hunting, OSINT, Reconnaissance, Attack Surface Analysis

Security Tools

Burp Suite, Nmap, Wireshark, Kali Linux, Google Dorking

Cloud & Platforms

Git, GitHub, Netlify, Render

CERTIFICATIONS

- Advanced Cyber Security - GUVI | HCL
- Ethical Hacking & Bug Bounty - EverHack
- Dark Web & Cryptocurrency - CodeRed

SOFT SKILLS

Communication, Leadership, Problem-Solving, Critical Thinking, Adaptability, Mentoring

PROFESSIONAL EXPERIENCE

CYBER SECURITY INTERN | Cyber Leelawat 2026 - Present

- Completed cybersecurity internship with Grade A+ (100/100).
- Performed reconnaissance, attack surface analysis and security assessments.
- Worked on vulnerability identification, reporting and cybersecurity investigations.
- Gained practical experience in web security testing and defensive security workflows.

FOUNDER & COMMUNITY LEAD | NS Indian Cyber Army 2025 - Present

- Founded and manage a cybersecurity community focused on ethical hacking awareness.
- Mentor learners in penetration testing, OSINT, web security and responsible disclosure.
- Organize cybersecurity discussions, learning sessions and practical security challenges.

FEATURED PROJECTS

NS.ai Security Operations Center 2026 - Present | Private Internal System

- Built a private SOC platform for real-time visitor intelligence, threat scoring, Digital Twin analysis, IP intelligence and firewall management.

Tech: React.js, Node.js, Express.js, MongoDB, Render, Netlify

NSphotoX 2026 - Present

- Developed an image OSINT and metadata forensics platform with EXIF analysis, GPS intelligence, OCR extraction, risk analysis and forensic reporting.

WebinfoX 2026 - Present

- Created a cyber reconnaissance framework for WHOIS lookup, DNS intelligence, SSL inspection and attack surface mapping.

NS Music Air In Development

- Building a full-stack music streaming platform with playlists, rooms and synchronized playback.

Portfolio Admin Analytics Platform

- Built a real-time admin analytics system with visitor tracking, messages, dashboards and security logs.

KEY ACHIEVEMENTS

- Official Security Acknowledgement - Code.org.
- Ranked in the Top 20% globally on TryHackMe.
- Cyber Security Internship Grade A+ (100/100) - Cyber Leelawat.
- Founder of NS Indian Cyber Army and active cybersecurity community mentor.
